Starlight Xpress Lodestar Autoguider Review

The Starlight Xpress Lodestar X2 Autoguider is a popular guide camera for deep-sky astrophotography. In fact, the original Lodestar was considered to be the best autoguider on the market for a long time. The X2 version is the successor to the original Starlight Xpress Lodestar autoguider and uses a Sony ICX829 Exview sensor.

Using a Starlight Xpress Lodestar X2 Autoguider for ...

Works perfectly with my Mac (OSX). The sensitivity is fantastic, and shows many more stars than other guiding CCD's I have used. I am very satisfied.

Amazon.com: Customer reviews: Starlight Xpress Lodestar X2 ...

The Lodestar is a compact stand-alone USB2.0 guide camera featuring the large, sensitive Sony ICX429AL Exview CCD. Suitable for most mounts with a standard autoguider input. As small as a 1.25" eyepiece!

Starlight Xpress Lodestar Autoguider | First Light Optics

Starlight Xpress Lodestar X2 - Lowest Price Guaranteed | OPT

The Starlight Xpress mini filter wheel is built to a high standard and its shiny black finish matches the other CCD-imaging cameras in the Starlight Xpress range. The design ensures that the company's imaging and guide cameras are parfocal with one another without requiring additional spacers, which makes fitting the filter wheel quick and easy.

Starlight Xpress Mini Filter Wheel with OAG review ...

The original Lodestar uses the ICX429 Exview chip from Sony and offers excellent sensitivity. However, Sony have now upgraded the ICX429 to the ICX829, with considerably improved QE and read noise. This new 'Exview 2' chip approximately doubles the Lodestar sensitivity and adds nearly a full star magnitude to the minimum guide star brightness.

Lodestar X2 Autoguider - Starlight Xpress Ltd

Very quick first impressions- wow what a sensitive chip!M82 5 secondsM81 5 secondsGot to be careful not to overexpose! More to follow.

Starlight Xpress Lodestar X2 - Member Equipment Reviews ...

The World's favourite autoguider is now even better! With its new Sony ICX829 Exview2 CCD, it offers twice the sensitivity of the original Lodestar, making guide stars even easier to find. In addition, the autoguider output socket is now a standard RJ12 connector and so overcomes any objections to the strength of the original Lodestar cable.
